The Experienced Beginners' in Hieroglyphic Egyptian course is based on the standard text used in teaching Middle Egyptian at Macquarie University, *A Concise Grammar of Middle Egyptian* (Boyo Ockinga). It would be an advantage to have a copy of this grammar book, especially if you intend to continue the study of Middle Ancient Egyptian.

This course will discuss verbal sentences, participles, relative forms, contingent tenses, complex sentences, topicalization, focalisation, negation. There are exercises and readings to illustrate the grammar.

Topics discussed in the Beginner's in Hieroglyphic Egyptian Course will be revised if required.
